Plan for tomorrow, start saving today

SAVE
£123
per year*

Our preventative healthcare plan is tailored to maintain your horse's health, covering the expected routine treatments they need throughout the year.

When it comes to routine wellness treatments for your horse like vaccinations, routine dental, and worming treatments, not only can the costs mount up, but there's all the planning and scheduling of appointments too.

With our Equine Health Plan, you can cover your horse's key preventative treatments throughout the year, saving you money and spreading the cost.

So join the Equine Health Plan today save money and have one less thing to worry about!

+ Lifetime medication discount only available on a prescribed list of medication, please speak to your veterinary practice for further information.

[^] The number of faecal egg counts will be determined by your vet.

Equine Health Plan member **BENEFITS**

The Equine Health Plan is a **convenient** and structured plan tailored to **maintain** your horse's health.

Unlike insurance that covers accident and illness, the Equine Health Plan covers the expected **routine treatments** your horse needs throughout the year.

To make it simple and easy for you to manage we will send you **reminders and schedule visits** where possible so you have peace of mind that your beloved horse will get what they need, when they need it!

Your Equine Health Plan **renews automatically** every year so you can continue with preventative healthcare to keep your horse in tip-top condition whilst making great savings that protect your pocket.

You can **cancel** your plan at any time but if you are part way through a plan year and have received more than has been paid in (for that plan year), you will need to pay the difference.
